PRODUCT: D1030 SLOW THINNER FOR STAINS

DESCRIPTION: D1030 is a special thinner with a very slow evaporation curve, to be used for diluting our IN series stains when it is necessary to wet the wood's pores very well in order to highlight them. It can be applied by spray, brush, cloth or sponge. Compared to dilution with water, with this thinner faster drying times can be obtained with less fibre lift.

SPECIFICATIONS OF SUPPLIED PRODUCT  
Physical state: colourless liquid

SPECIFICATIONS OF SUPPLIED PRODUCT CHARACTERISTICS	UNITS	VALUE	METHOD
Specific gravity at 20°C:	g/ml	0.86 ± 0.05	MP01
